Outlook- We lost 5 out of last year's Top 7 players... Most programs would say this would be a rebuilding year based on that fact alone... Add in this year's schedule and you could have a recipe for a long year. The key word there is could...

Strengths- We possess size and some battle tested veterans... Can our new additions become strengths? I wouldn't be shocked if this proved true.

Weaknesses- We will introduce some new faces to SH basketball this winter... Their lack of experience could be a detriment especially early on or we could be talking about another typical Sacred Heart season if the puzzle fits neatly together.
